AMICO POD

Agenda

Introduction and Context:

In the Proof of Delivery (POD) process, users conveniently access diverse delivery notes or proofs via email or a shared drive. Upon receipt, they diligently download the PDF file and meticulously extract vital information, such as the invoice number or supplier reference number. Subsequently, users effortlessly navigate to the relevant T-code within SAP, expertly attaching the corresponding delivery proof to the specific sales order or billing document, ensuring efficient record-keeping and comprehensive documentation

شركة الامين للتجهيزات الطبية والعلمية

Al Amin Medical Instruments Co. Ltd.

Navigating Challenges:

- POD process encounters hurdles in managing diverse document sources like emails or shared drives.
- Extracting specific data, like invoice or supplier numbers, requires time and precision.

- Posting this extracted information into SAP using respective T-codes adds complexity to the workflow.

Crafted Solutions

RPA Strategy for POD Process	Integration Objective:

- Developing innovative RPA solution to automate tasks efficiently.
- Primary goal: enhancing document management across diverse sources.

- Seamless integration of vital data into SAP system.
- Ensuring streamlined, error-free processes for greater operational efficiency.

Realizing Results

01

Efficiency through RPA:

Automation reduces manual effort in handling delivery proofs and data extraction, significantly improving the efficiency of integrating data into SAP.
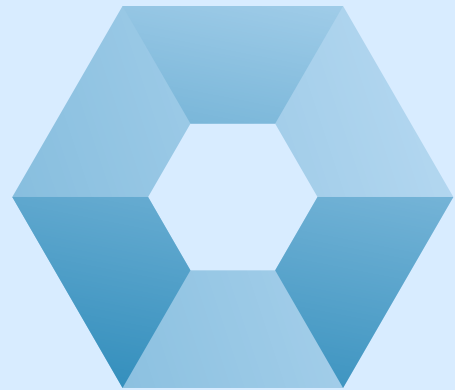

02

Operational Improvement:

Improved operational efficiency and optimized resource utilization.

03

Error Reduction:

Diminished errors due to automated processes in the POD workflow.

Client Testimonials:

Transformation through RPA in POD Process:
RPA transformed document handling and data extraction, streamlining operations, while the seamless integration into SAP notably reduced errors and enhanced accuracy.

Efficiency Gains and Global Rollout:
The successful rollout across five countries signifies a significant milestone, showcasing remarkable efficiency gains and improved resource utilization within the team.
